In this article, we will take you through Photoshop for artists in 9 steps. Step 1: Open Photoshop CS4 Step 2: For beginners: Open Photoshop for beginners Step 3: Start with a Blank Document Step 4: Import Files Step 5: Place Layers Step 6: Edit Images Step 7: Learn Photoshop shortcuts Step 8: Compose Your Images Step 9: Save, Export and Print your work Step 1: Open Photoshop Mac users: Create a Photoshop document (image editing program) by clicking on Create new. Windows users: Click on File>New>Image, and then make your selection according to your image. Step 2: For beginners: Open Photoshop for beginners Click on File>New to open a Photoshop document (image editing program). Step 3: Start with a Blank Document Follow the steps to create a Photoshop document, using the regular methods Make sure that you are in the Document window as we are going to use this tool to edit a photograph. Click on Window>Preferences to access the Photoshop Preference Panel. Click on File>New to access the preferences panel. From the toolbox, select the Blank Document option. Step 4: Import Files Click on File>Import, and then browse to open a photo or image file. If you want to edit a pre-existing image, then you can click on Browse to locate and select the image. By default the full-sized image is opened in the active Photoshop document. Step 5: Place Layers A Photoshop document contains one or more Photoshop layers. To create a new layer, simply drag your cursor to the bottom of the layer. Drag to wherever you want the new layer to be placed. Now move your cursor up to the part of the image that you want to crop. Select the part of the layer that you want to crop, and then hold down the Ctrl (control) key. In other words, press the control key, and click on the part of the image where you want to cut the portion of the image. This option is useful if you want to crop a part of the image and place it somewhere else.

FATCA and AML Registration Register for FATCA and AML There are eight areas the FATCA (Foreign Account Tax Compliance Act) Registration Board is responsible for: The FATCA (Foreign Account Tax Compliance Act) Registration Board The IRS (Internal Revenue Service) will publish a notice in the Federal Register announcing the introduction of the Foreign Account Tax Compliance Act (FATCA), including any amendments to the rules implementing FATCA. This notice will include a separate section titled "Registration" in which the IRS will post information about the FATCA registration process and requirements for certain U.S. persons, including financial institutions (banks and other financial institutions) that deal in, or with, U.S. persons. The IRS will submit the final regulations to the Treasury Department for review. How to Register for FATCA Foreign financial institutions that deal with or are owned by U.S. persons and that are subject to the FATCA rules must register with the IRS. For more information, visit the IRS Web site. Who is a U.S. Person? Certain types of entities, such as personal investment companies, are U.S. persons for purposes of FATCA. Other entities, such as certain foreign organizations with U.S. shareholders, also have certain obligations for purposes of the FATCA rules. For details, see Reporting Financial Accounts of U.S. Persons. Any financial institution in which U.S. persons have an interest, including those that are not subject to the FATCA rules, must be registered. In addition, anyone who engages in a transaction that could subject them to FATCA, including investments, must register. How to Register Any financial institution that satisfies the requirements for FATCA registration must register with the IRS by filing Form 8936. Each financial institution should register with the IRS, even if it had registered earlier and used the same forms and information. A financial institution that receives a new client from another financial institution must also register, even if it has satisfied the registration requirements in the prior filing. This is to ensure that the correct information is maintained on file for each financial institution and that neither bank nor any other financial institution avoids reporting or paying the FATCA taxes. The IRS will use Form 8936 to collect certain information about a financial institution's compliance with FATCA's registration and reporting requirements. The registration process requires the submission of a completed Form 8936 along with supporting documentation.

What's New in the?

What I'm reading and what I'm thinking... New books I recently read a novel titled "The Chrysanthemum and the Sword". The main character, Sang Ho, starts out as a cog in the law enforcing bureaucracy of late Joseon Dynasty Korea, and discovers the hope of freedom when he escapes from prison and finds a way to the enemy, the Qing Dynasty. The second book I read is about the life of a real-life ninja. It is set in the early 17th Century. The main character, Chin Lin, is a wanted man who is desperately in search of his identity, his family, and a way to clear his name. Two books from the author of "From Sundown". These are some of the better books on the market today. Teach your kids about history There are many reasons to teach kids about history, and the way the Korean government has implemented this into their education systems is a big one. For those interested in learning more, there is the history foundation in Seoul, which is a free and volunteer based history foundation that is completely free for kids. There are also many programs designed for kids that are both free and accessible for both poor families and middle-class families. There are foreign language programs for kids in which they can learn the basics of the language and there are even English programs designed for some of the older kids. There is quite a bit of educational options that I am recommending here. Just keep in mind that it will not be cheap. Videos Did you know that you can use Google the same way you use YouTube? By doing a search through its thesaurus, you can actually find a plethora of different meanings for a wide variety of different words. For example, "a monster". You can enter "a monster" in the Google to find all the ways people are using that word, such as an animal, a disease, a person (such as Hitler), a device (such as the blackberry or a steel mill), or something that drives you crazy (such as a car). You can even enter "a monster" in the Google+ and get a whole variety of images that "a monster" can take. There are too many videos to choose from, but for the sake of simplicity, I just chose some of the more popular ones. Film If you haven't
